

## Subang Jaya gets its first 'green' condominium

Nadayu Properties Bhd recently introduced its Green Building Index (GBI)-certified condominium in Bandar Sunway, Subang Jaya. Nadayu28 is part of a mixed-use development that comprises 411 condos and 10 shopoffices. Completed last month and awarded the certificate of completion and compliance by GBI, it is the first and only "green" condominium in Subang Jaya. Nadayu28 is in the process of upgrading its certification from "Gold" to "Platinum" – the highest GBI rating. "We made it a point to consider the human values of the surrounding community," said Nadayu executive chairman Hamidon Abdullah.
